WHO ARE THE REAL PATRIOTS?

On all sides we hear the word "patriotism." It's a wonderful word, but I am afraid it is sometimes misunderstood. To my way of thinking patriotism is something that should be always in our hearts-something that makes us really appreciate this wonderful country of ours-something that makes us willing to put on a uniform and die for it-something that makes us buy War Bonds until its hurts-something that makes us put the general welfare above personal, selfish welfare.

I have always been among the first to step forward to aid in any project that was for the welfare of the public. And in that respect, especially, I urge the voters of Jackson and Ouachita Parishes to compare my record with that of my opponent.

I firmly believe that prosperous Americans are good Americans. I mean that if a man is able to own his own home, his own automobile, his own little patch of ground, free from worry and troubles, then he is willing to stand like a rock against all the foreign 'isms that could possibly gain a foothold in this country if our people are poor and unable to have the good things of life. The days of special privilege are gone. We all want an America where every man has equal opportunity-an America in which all Americans can earn a real stake. Then, and then only, will we be safe from the ravings of the demagogues who claim they will give every man "forty acres and a mule" simply for the asking.

WE MUST HAVE A STATE AND A NATION LED BY MEN AND WOMEN WHO ARE GUIDED BY TRUE PATRIOTISM-NOT PHONY PATRIOTISM-NOT THE KIND OF LEADERS WHO WAVE THE FLAG SIMPLY TO GET VOTES.

A VOTE FOR GEORGE D. PIPES IS A VOTE FOR A MAN WHO HAS PROVED HIS PATRIOTISM.

Miss Eloise Cann Delivers Principal Address In Observance At Sherrouse

The national observance this month of Founder's day by every Parent-Teacher association brings to mind the stupendous efforts made by the National Congress of Parent-Teacher associations to speed up a program insuring better homes, better schools and better communities for the children of today who will be citizens of tomorrow.

At these meetings now being helder in every school in the Twin Cities members of Parent-Teacher associations are reminded of the problems they will face. These problems will be unparalleled in the history of the world. It will take strong minds in strong bodies to cope with conditions they will have to meet.

The war program of the National Congress of Parents and Teachers takes into account the needs of all children today. Preserving a normal home atmosphere to give that feeling the feeling are supported in the hearts of all tongues and be translated into all tongues and the support of the child is important. Each must have this basic needs met if he is to grow to maturity, strong in mind and body and with an appreciation of "the American dream." Each home must do its best for its own children.

"If we truly believe that great ideas are all-powerful; that they cannot be destroyed by persecution; that they can be translated into all tongues and be translated into all tongues and the conditions they will have to meet.

The Cost of Natural Gas Service Has Not Contributed to the Increased Cost of Living!

In these days, when almost everything you buy has increased in cost, the cost of efficient and dependable United Gas Service has not been increased. Natural Gas comes to you at the same high quality as before the war.

Natural Gas-serving you in many ways, helps you to lower your cost of living.

> * The Bureau of Labor Statistics in Washington reports that living costs as of November 15, 1943, are up more than 24 per cent as compared with the average of the period 1935-39. Over the same period, your Gas Company has "held the line" -- with prewar gas rates!
